FaidiHR Partners with HealthX Africa to Launch Employee Health and Wellness Program for Enhanced Workforce Well-Being

HealthX Africa, a leader in telehealth primary healthcare services, is proud to announce its strategic partnership with FaidiHR to launch comprehensive Employee Health and Wellness Program. This innovative initiative aims to provide businesses across Kenya with seamless, virtual healthcare for their employees, promoting mental and physical well-being without disrupting the workday.

As part of this exclusive partnership, companies that sign up for HealthX Africa's Employee Health and Wellness Program through FaidiHR will enjoy a special discounted rate. This affordable pricing ensures that businesses of all sizes can invest in their employees' health and well-being, helping to improve productivity and job satisfaction.

The Employee Health and Wellness Program offer employees virtual consultations with HealthX Africa's expert doctors, clinical psychologists, and nutritionists, alongside personalized wellness plans, mental health support, and chronic illness management. These services are available 24/7, ensuring employees can receive the care they need when it suits them, all while maintaining complete privacy and confidentiality.

FaidiHR is a cloud-based platform designed to help small and medium enterprises in Africa automate HR processes such as payroll, off days, employee data management, and more. This new partnership enables FaidiHR clients to access HealthX Africa's telehealth services at an exclusive discount, further enhancing workplace productivity and well-being.

Key Features of the Employee Health and Wellness Program:

- **Special Discount:** Sign up through FaidiHR to get an employee health and wellness program for your team.
- **24/7 Virtual Consultations:** Employees can access healthcare professionals anytime, anywhere.
- **Mental Health Support:** Confidential counseling services to address personal and work-related challenges.
- **Personalized Wellness Plans:** Tailored guidance from clinical nutritionists to boost overall health.
- **Real-time Health Monitoring:** Ongoing support for chronic conditions and proactive healthcare.

About HealthX Africa:

HealthX Africa is a leading telehealth provider committed to making healthcare accessible and affordable across Kenya. Through its advanced telemedicine platform, HealthX Africa connects patients with healthcare professionals for remote consultations, offering comprehensive medical care, mental health support, and wellness services.
